

FCC,

I am an avid listener of XM radio and I absolutely love the fact that I get continuous music , weather and traffic without interruption. I pay for this service and I feel that it is worth every penny. The traffic is very crucial to me since I work Downtown and live in a suburb. This service allows me to find out up to the minute traffic news before I get on the highway and it also helps in allowing me to decide which is the best route for me to travel home. It should not be up to the National Association of Broadcasters to dictate what I'm permitted to hear since I again pay for this service.

Please reject the NAB's petition 04-160 and support XM's ability to provide this wonderful kind of programming.

Thanks
